Title	:	SYSTEM AND METHOD FOR LISTING OFFERINGS OF COMMERCIAL PAPER AND OTHER INTERESTS
Examiner	:	WEISBERGER, Richard C.
Group Art Unit:		3624

DECLARATION OF SUSANNE VINDEKILDE

I, Susanne Vindekilde, declare as follows:

1.   I am the named inventor in the above-identified patent application.

2.   I currently am and have been employed by Bloomberg L.P. since May 3, 1999.

3.   The document, titled "Bloomberg Offerings on Money Markets – BOOM <GO> ("the *BOOM* Document"), attached as Exhibit A, describes in part the Bloomberg Offerings on Money Markets product ("the *BOOM* Product") distributed by Bloomberg L.P.

4.   I invented aspects of the *BOOM* Product that are described in the above-identified patent application and in the *BOOM* Document.

5.   Upon information and belief, the dates in the screens depicted in the *BOOM* Document are historical.

I declare further that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

BENEFITS: Bloomberg Offerings on Money Markets (BOOM) offers a liquidity platform for buyers of commericial paper. BOOM searches Bloomberg's commercial paper database and compiles a list of CP dealers whose offerings meet the defined invesmtent criteria.

Instead of looking up multiple commercial paper dealers for offerings, **money market portfolio managers, corporate treasurers** and **other buyers of commerical paper** can preview offerings from a variety of dealers and evaluate price/yield levels anynomously. The results of **BOOM's** CP search reveal which dealers post the most competitive prices— information necessary for quick transaction or further negotiation with trading partners. All money market portfolio managers **need are viewing privileges from the dealers** they transact with. BOOM only advertises a dealer's CP inventory to the buyside users that the dealer chooses to privilege. In this way, **BOOM helps CP dealers reach a broader audience or target a specific one.**

INTERPRETATION: The following section will show you how to to find the offerings that meet your criteria using BOOM to scan Bloomberg's database of dealer-placed commercial paper. BOOM defaults to all dealers since most BOOM users prefer to view as many dealers as possible. Why? Because institutional investment managers have a fiduciary responsibility to seek all possible sources in order to achieve the highest yield for their customers.

Type BOOM <GO>. If you have worked with BOOM before, the search profiles that you saved will appear in the "Prolies" column to the left. If you are using BOOM for the first time, the only choice in the "Profiles" column will invite you to "Add New Search." Doing so lets you define your search criteria and store it for future use.

Want to send an e-mail to someone's internet address?
Simply type their internet address followed by the <MSG> key!
```

Click on an amber field, then enter your criteria from Maturity, Minimum Size and Minimum Yield. When you click on any of choices for ratings, the field insert an "X" to select the ratings class or just tab into the field and type and "X." To deselect an option, just click on the field again to remove the "X."

Finally, you can manipulate the way that offering data appears on the screen by defining the "Sort Order" fields. Click on any of these fields for a drop-down menu. Most users prefer maturity, rating, and size. However some like to see yield or discount leading the sort order.

Now that you're finished entering your critieria, you'll still have some choicies to make. You can click on the green <Search> button to search the database. To save your work, click on the green <Search and Save> button instead.

Once search profiles are set up, clicking on them will fill in the criteria in the right hand side. Then, you'll be given the choice to search, search and save, clear your critria, or delete your search If you opt to <Delete Search> you will see a prompt that asks,

Now you're ready to monitor offers. Click on <Search and Save>. A contributor list and the number of money market offerings that meet your criteria will display to the left.

Since dealers maintain their privileging rights, you must have dealer authorization to view the offerings. Click to selecting a contributor. A table of offering results will appear to the right. For each piece of paper, you'll see the size of the offering, issuer, maturity, discount, yield and credit rating. To scroll through the list, click on "Page 1 of 30." To change the appearance of this display, click on <Contributor Display Options>.

Did you know that you can continue your pre-trade analysis without leaving this screen?
If you click on a security, a pop up box will appear offering links to a variety of analytics.

From here, you can gather more descriptive information on the issuer, perform yield analysis or look for additional news and research. Or if you're ready to trade, select the ticket writing function, **<Buy Ticket>** from the same pop-up window and a buy ticket will appear.

Click <Create New Search> or <View Saved Searches> to return to the main **BOOM** page.

```

paper issuers that you are permitted to buy.

FREQUENTLY ASKED QUESTIONS

Q: *If I auto-execute my commercial paper directly from a specific dealer, do I need to go to another Bloomberg window to do so?*

A: NO. Entering a Commercial Paper Dealer page in BOOM or outside of BOOM is exactly the same. Enablement is also the same.

Q: *Why is it important to have a "Search Profile"?*

A: Because often Commercial Paper buyers have multiple criteria needs (depending on the portfolios they manage, the timing of investment needs, specific quantities required or various economic scenarios) that would prescribe changing their search criteria on a regular basis. For example, if XYZ Corporation always buys three-day commercial paper every Friday but Monday through Thursday they bought in the 30-day area, they would save these 2 search profiles.

Q: *What is this "Approved issuer list"?*

A: Past experience has shown that even though commercial paper carries a short maturity, credit quality can deteriorate rapidly causing losses in principal. And since Money Markets are bought as cash-equivalents, low risk is superior to high yield. Therefore, a short-term money manager must rely on some credit analysis. And ordinarily, their company's credit analysts create a specific LIST of preapproved names that are distributed to the portfolio managers. This LIST is duplicated in Bloomberg's AIL function, whose purpose is to aggregate the names as a single filter whereby ONLY those approved names are viewed.

Q: *I don't understand this "enabling" thing. Do I work on getting clients enabled? And how do they know they are enabled or not?*

A: **ONLY Commercial Paper Dealers can control viewing and or auto-executing privileges. Bloomberg is not authorized to do this. To see which Dealer(s)you are able to view/trade, type BOOM <GO>. "ALL" should appear in the "Dealer List" field. To view the dealer list, enter a "?" in the "Dealer List" field. A pop-up menu will appear— an "X" to the right of the dealer's name. Make sure ALL Dealers are requested. Press <Menu> to return to the main menu. Enter 1 <GO> to update changes to the profile and monitor offers. The Dealers for which you have been enabled are numbered starting on the top of the page. The Dealers for which you who have not been enabled will dipslay their logos on the lower half of the page. Click on a dealer logo, to find out how to become enabled.**
